# Redevelopment Arts & Culture Grants

“One of the key components of a thriving community is strong support for the arts and culture. Carson City believes that and supports the arts through granting critical funding to help the arts survive and thrive. Without the arts and this kind of support, Carson City and the surrounding Northern Nevada region would be a much different place to live, work and visit.”

“Arts and culture are the heartbeat of any community. Where arts and culture thrive, the entire community flourishes, both economically and in a better quality of life.”

“Carson City is becoming known as an arts-and-culture community with a great quality of life for residents and visitors, and the creative workforce is growing the economy.”
